our MISSION To fuel Sioux Center's passion for reading, personal growth, and learning.

Many adults appreciated the facebook class.

Yolanda Gonzalez has participated in Spanish language computer literacy classes and English conversation classes. She's applied those computer skills to higher education. This July, Yolanda completed her associate's degree online through NCC. She says, "I'm having this opportunity because [the library] always helps me so much. They always have the information you need and the people to help you. The Sioux Center library pays lots of attention to our children and adults. They help us become involved in community and school activities. Thank you for your great effort and dedication to the Hispanic community."

"Never in my life did I imagine that someone would bring me all these wonderful books!" -grateful Books for Seniors patron

FY 2016

Children's Programs

by Lisa Laird

- # of Programs Offered: 11
- # of Locations: 7
- # of Kid Participation: 298

"Lisa has been in our three-year-old preschool classes only once yet and the children loved her. They were fascinated by the puppets, stories, and magic. Lisa was on their level and they easily understood the concepts that were taught and they didn't even realize they were learning! They also recalled things the next time we had class. We are looking forward to having Lisa come once per month." - Headstart Staff
