

## **SOCIAL MEDIA POLICY**

The Sioux Center Public Library makes use of social media to reach out and be more easily accessible to current and potential library users. Social media allows the library to meet users where they are, and give staff and public a convenient way to interact, ask questions, and share information, ideas, and opinions on topics related to the library's mission, services, and collection. The library uses social media to promote upcoming library events, programs, services, and classes. The library will also share posts from other sources that communicate the love of reading, libraries, literacy or life-long learning or that contains timely and pertinent information for our community. The library will post pictures of children, teens and adults in library programs or utilizing library services unless notified by the patron(s) not to publish their image.

Social media is defined as any website or application that allows people to create and share information in a virtual environment including, but not limited to, Facebook, Twitter, Instagram, and blogs.

9. Postings which violate or potentially violate local, state, or federal laws including intellectual property and copyright laws.

10. The library reserves the right to block users from posting content if they violate these guidelines.

The Sioux Center Public Library is not responsible or liable for any content posted by any participant in a library social media forum who is not a member of the library staff. Third party postings do not reflect the opinions or positions of the Sioux Center Public Library, the library board, or the City of Sioux Center.
